

PRODUCT DATA

220PP Parts Washer Plus (Formerly BEAN•e•doo® Partswasher Plus)

BLUE BEAR® 220PP Parts Washer Solvent is an effective solution for inhibiting rust on metal parts. In addition to easily removing oil, grease, and grime from industrial parts and equipment, **220PP** is a safe eco-friendly replacement to traditional petroleum parts washer solvents.

Application:

Do not dilute **220PP**. Soak part to be cleaned. To decrease soaking time, periodically scrub part with a wire or heavy bristled brush.

Clean Up:

Use compressed air or wipe with a damp rag to leave a light corrosion inhibitor coating on the metal part.

Usage Tip from the Pros:

May be heated to 100°F (37.8°C) to improve performance.

Biodegradable:

Meets or exceeds ASTM standards

Precautions:

Dispose of any waste according to local regulations. Remember to properly dispose of rags to prevent the possibility of combustion. Used rags should always be stored in UL listed (or equivalent approved) covered containers. Avoid eye contact. Gloves, eye protection, and protective gloves are recommended.

Warnings:

Causes skin irritation. Causes serious eye irritation. May be harmful if swallowed. Keep out of reach of children.

Flash Point:

Above 425°F (218.33°C)

pH Level:

6.65 pH of 1/10 wt/wt solution in soft water

VOC (Volatile Organic Compounds):

<3%, 0.22 lb/g, 26 g/l, California and OTC Compliant

Ingredients:

Soy Ester, Corrosion Inhibitor, Proprietary Surfactant Blend
