# PRODUCT DATA

## **300RE** Asphalt Remover (Formerly BEAN•E•D00® Asphalt Cleaner)

Taking off difficult, high-oil type asphalts is a snap with **300RE**. Effectively removes modified asphalts, polymers, top coating, coal tar, and tac-coatings, keeping equipment and tools clean and free of build-up. Not only is **300RE** a great cleaner, it's a great protectant as well. Pre-applying to metal surfaces before using helps to keep asphalt from bonding tightly to the surface, making cleaning easier than ever!

### **Coverage:**

Average coverage is 100-200 sq ft per gallon.

### **Application:**

Spray undiluted **300RE** directly on asphalt build-up. Let sit until build-up has softened. Thicker build-ups may require multiple applications or longer dwell times.

### **Clean Up:**

Spray clean with pressured hose or power washer.

### **Usage Tips from the Pros:**

- Pre-apply **300RE** to clean metal surfaces to help prevent asphalt from bonding.
- For large machinery or application areas, use a pump-up sprayer with chemical resistant seals.
- Build-ups of more than 1/2" thick may require multiple applications.

### **Biodegradable:**

Meets or exceeds ASTM standards

### **Precautions:**

**300RE** is designed to break down asphalt based surfaces. Protect surfaces not intended for **300RE**.

### **Warnings:**

May cause mild skin irritation. May cause eye irritation. May be harmful if swallowed. Keep out of reach of children.

### **Flash Point:**

Above 425°F (218.33°C)

### **pH Level:**

6.65 pH of 1/10 wt/wt solution in soft water

### **VOC (Volatile Organic Compounds):**

2.3%, .06 lb/g, 20 g/l  
California and OTC Compliant

### **Ingredients:**

Soy Ester, Proprietary Surfactant Blend
