PRODUCT DATA

EBC™ 720ES Exterior Surface Cleaner

BLUE BEAR® EBC™ 720ES Exterior Surface Cleaner is a blend of natural fruit acids and super infused surfactants. It is ideal for cleaning building exteriors and removing efflorescence, cement film, lime residue, mortar residues, moss and algae, and environmental dirt.

Mixing: For exterior building cleaning, dilute **EBC** 1:10 (1 part **EBC** to 10 parts water). For lighter cleaning, **EBC** may be diluted 1:30. For maintenance sanitary cleaning, depending on the material to be removed, use full strength to a dilution of 1:50.

Application:

For Cleaning Building Exteriors: Spray **EBC** on surface. If necessary, work product around with brush or other cleaning tool. Rinse with clean water.

For Floors: Pour or spray on **EBC**, then use a rotating cleaning pad or brush. Pick up dirty water with suction or mop. Rinse with fresh water. If not all dirt has been removed, repeat process.

Precautions: Test **EBC** first at a concealed point, especially on marble and limestone. Protect plants, vegetation, and adjacent objects with a plastic drop cloth.

Storage: Keep container closed when not in use.

Biodegradable: Meets or exceeds ASTM standards

Flash Point: Will not burn

pH Level: 2.62 pH of 1/10 wt/wt solution in soft water

CAUTION: Causes skin irritation. Causes severe eye irritation. May cause respiratory irritation or may cause drowsiness or dizziness. May be harmful if swallowed. Keep out of reach of children.

Ingredients: H₂O, glycolic acid, ethoxylated alcohol, citric acid, propylene glycol

VOC (Volatile Organic Compound) content:
0%, 0 lb/g, 0 g/l, California and OTC compliant
