PRODUCT DATA

Verasafe® 760CE Muriatic Acid Replacement

BLUE BEAR® Verasafe® 760CE Muriatic Acid Replacement is a safe, organic replacement for traditional harmful acids, such as hydrochloric, sulfuric, and muriatic acid. It can be used for a multitude of different applications. This revolutionary acid alternative cleans with industrial strength but will not burn your skin. **Verasafe** is non-fuming, environmentally safe, and 100% biodegradable. **Verasafe** will give you excellent performance with none of the hazards of a traditional acid, providing peace of mind, while saving you time and money.

Application:

For Etching Concrete: Do not dilute. Make sure all coatings are removed and the surface is completely clean and dry before etching. Apply **Verasafe** generously by pouring or spraying, then let dwell for a minimum of 10 minutes. Rinse well with a concentrated water spray. No neutralizing is required.

For General Cleaning: Dilute **Verasafe** 1:1 (one part **Verasafe** to one part water). Apply generously to surface and let dwell until desired cleaning occurs. Rinse well with water. No neutralizing is required.

Precautions: Avoid contact with oxidizers. Dispose of waste according to local regulations.

Storage: Keep container closed when not in use.

Biodegradable: Meets or exceeds ASTM standards

Flash Point: Above 425°F (218.33°C)

pH Level: 6.65 pH of 1/10 wt/wt solution in soft water

CAUTION: Causes serious eye irritation. May be harmful if swallowed. Keep out of reach of children.

Ingredients: Water, proprietary organic salt blend

VOC (Volatile Organic Compound) content:
1%, 8.86 lb/g, 0.07 g/l, California and OTC compliant
