PRODUCT DATA

BEAN•e•doo® 280AH Automotive Adhesive Remover

BLUE BEAR® BEAN•e•doo® 280AH Auto Adhesive Remover is an innovative and effective product for body shops and classic car enthusiasts. Specially formulated **BEAN•e•doo** eliminates damage to moldings caused by sanding, grinding or using "the wheel," and saves at least 50% in man-hours when compared to using mechanical removal methods.

Usage Tips:

- Keep dip tray lid closed or covered when not in use.
- Do not use on chrome mylar moldings.

Coverage: Average coverage is 100-200 sq ft per gallon.

Application: Soak automotive molding for a few hours, but no longer than overnight. Once adhesive has softened, remove with a plastic scraper.

Clean Up: After adhesive has been removed, rinse thoroughly with water to remove remaining residue.

Storage: Keep container closed when not in use.

Precautions: Prolonged periods of soaking may soften or remove paint. **BEAN•e•doo** will remove chrome mylar tape found on body side moldings. Will also cause rubber moldings to swell. Do not use with very thin moldings.

Biodegradable: Meets or exceeds ASTM standards

Flash Point: 149°F (65°C)

pH Level: 5.4 pH of 1/10 wt/wt solution in soft water

CAUTION: May cause mild skin irritation. May cause eye irritation. May be harmful if swallowed. Keep out of reach of children.

Ingredients: Soy methyl ester, surfactant, corrosion inhibitor, d-Limonene

VOC (Volatile Organic Compound) content:
29.46%, 2.22 lb/g, 265.69 g/l California and OTC Compliant
