

STEP 1

TIP SHEET

Effective on textile inks and additives

Greeneway™

Multipurpose Ink Remover

Many screen printers use a multitude of different types of ink and additives to keep up with today's fashion trends and printing. Franmar's **Greeneway™ Multipurpose Ink Remover** allows screen printers to clean any type of textile ink - with or without additives. Simple, safe and effective - as cleaning screens should be.

Directions:

1. Spray or pour a small amount onto screen.
2. Scrub screen with a dedicated Biggee™ scrub pad or nylon brush.
3. Repeat on back of screen image.
4. Rinse both sides of screen with pressured water.

Note: Dilution is best suited to plastisol ink cleaning only. Test for effectiveness.

Usage Tips:

- **Greeneway does not evaporate.** Rinsing with water is necessary to remove the oil residue. Pressure washing facilitates a clean screen.
- Remember, less is more. Use a small amount and you will immediately see the ink loosen.
- If screen feels oily after cleaning, use less **Greeneway** or use more water to rinse.
- Can be used for on-press color changes and as a screen opener.

MORE INFORMATION:

Precautions: Dispose of waste according to local regulations. Avoid eye contact. If product contacts eye, rinse thoroughly with water. Call a physician if irritation persists. If swallowed do not induce vomiting. Call a physician. Nitrile or neoprene gloves are recommended for sensitive skin.
